

THE PHANTOM TOLLBOOTH – CLOCK MONOLOGUE

See that! Half a minute gone by. Seems like a long time when you're waiting for something to happen, doesn't it? Funny thing is, time can pass very slowly or very fast, and sometimes even both at once. The time now? Oh, a little after four, but what that means should depend on you. Too often, we do something simply because time tells us to. Time for school, time for bed, whoops, 12:00, time to be hungry. It can get a little silly, don't you think? Time is important, but it's what you do with it that makes it so. So my advice for you is to use it. Otherwise it will pass before you know it, and you'll certainly have missed something!
